EDUCATION

Madhav Institute of Technology & Science, Gwalior

Sept 2023 – Aug 2027

B.Tech — Artificial Intelligence & Data Science

CGPA: 8.3 / 10

Relevant Coursework: Data Structures & Algorithms, DBMS, OOP, Operating Systems, Machine Learning, NLP, Computer Networks

TECHNICAL SKILLS

Languages	Python, C++, JavaScript (ES6+), SQL, HTML5, CSS3
Frontend	React.js, Tailwind CSS, Responsive Web Design
Backend	Node.js, Express.js, FastAPI, REST API Design, JWT Authentication, Middleware Validation
Databases	MongoDB, MySQL, ChromaDB (Vector Store)
AI / GenAI	LangChain, RAG (Retrieval-Augmented Generation), HuggingFace Embeddings, NLP, LLM Apps
Core CS	Data Structures & Algorithms, DBMS, OOP, Operating Systems, Computer Networks
Tools	Git, GitHub, Postman, VS Code

PROJECTS

SmartPark | Code | [React.js](#) | [Node.js](#) | [Express.js](#) | [MongoDB](#) | [REST APIs](#)

march 2026

- Engineered a full-stack intelligent parking management platform supporting automated slot booking, reservation tracking, and real-time parking availability workflows.
- Developed scalable RESTful APIs with JWT authentication, middleware validation, and role-based access control (RBAC) for secure backend operations.
- Designed optimized MongoDB database schemas and integrated responsive React.js dashboards for admin and end-user management systems.
- Implemented modular backend architecture improving maintainability, API scalability, and seamless frontend-backend communication.

DocMind AI | Code | [Python](#) | [LangChain](#) | [ChromaDB](#) | [Streamlit](#) | [RAG](#)

April 2026

- Built an AI-powered PDF chatbot enabling semantic document retrieval and conversational question answering using Retrieval-Augmented Generation (RAG).
- Implemented end-to-end document processing pipeline including PDF ingestion, recursive chunking, embedding generation, and vector database indexing.
- Integrated LangChain orchestration with ChromaDB vector storage and HuggingFace embeddings for contextual multi-document semantic search.
- Optimized LLM response generation using Mistral AI to deliver accurate, context-aware, and source-grounded conversational outputs.

ACHIEVEMENTS

- Qualified **GATE CSE 2026** — **AIR 14,658** | Score **426** among **2 lakh+** candidates nationwide, demonstrating strong Computer Science fundamentals across core engineering subjects.
- Solved **120+ DSA problems** on **LeetCode** covering arrays, linked lists, trees, graphs, hashing, sorting, recursion, and dynamic programming with consistent practice.

CERTIFICATIONS

- Data Structures & Algorithms** | PW Skills | *Algorithmic problem solving, time and space complexity*
- Backend Development (Node.js & Express.js)** | Udemy | *REST APIs, server architecture, database design, authentication*
